

REMARKS

In the Action, claims 1-4 were rejected under 35 U.S.C. §112 for being indefinite for various reasons, but were deemed to contain patentable subject matter and to be allowable if written to overcome the §112 issues. By this Amendment, all four of the originally presented claims have been amended to put them in better form and are now believed to be fully allowable.

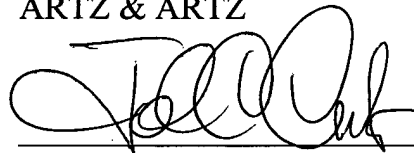

In addition, new claims 5-12 have been added to cover the system and process inventions. It is submitted that these claims are allowable along with claims 1-4.

In view of the foregoing, it is submitted that all of the claims remaining in the case, namely claims 1-12, are in proper form and patentably distinguish from the prior art. Accordingly, allowance of the claims and passage of the application to issuance are respectfully requested.

The Commissioner is authorized to charge any fee due to Deposit Account No. 50-0476.

Respectfully submitted,

ARTZ & ARTZ
